

POLICY TITLE: RECREATION FACILITIES TEMPORARY ADVERTISING

Policy No. 411

POLICY PURPOSE

To clarify that Council approval is not necessary for temporary advertising on recreational facilities controlled by Council.

POLICY STATEMENT

The Council has no objections to commercial advertising of a temporary nature being displayed on any areas used by sporting associations which are under the control of Council.

In the context the term "Temporary Advertising" means all commercial advertising that is on display only for the period that the area is in use **by** a particular sporting association, and the approval to exhibit such advertising will cease on completion of the practice or competition match in which the particular sporting association is involved, when the advertising then displayed shall be removed.

Any advertising shall not, be of an offensive or controversial nature (in the opinion of Council).
